

Being a full time, long haul trucker; I have come to depend on my XM radio road and weather reports on an hourly basis. If you think about it for a minute you will realize that these reports available as they are have made a definite difference in highway safety.)_Please do not allow the "elite" media to take this most valuable asset to highway safety away from those who trully depend on it. I know it hasn't been available for long but, it's value to us is incalculable.

Sincerely'

Woody R. Winter
